

November 2015

Dear Parents/Carers

We have a child in school who suffers from life threatening nut, sesame seed (including houmous) and mango allergy. As a result, the school will take every precaution to provide a safe environment for him.

The greatest danger is that children who have eaten nuts, sesame seeds and mango products at lunchtime, may inadvertently transfer particles by their hands, clothing or classroom furniture.

We would be extremely grateful if you could make sure that these foods are **not included** in your child's school lunchbox.

If you would like any further advice please do not hesitate to contact the school office.

Thanking you in anticipation of your co-operation.

Yours sincerely

Verity Stobart
