

Values

We will be looking at the Germander Park values and discovering how to recognise and show the values of INDEPENDENCE and SHARING.

Maths

This half term we will be counting and ordering numbers from 0-10. We will be exploring the concepts of 'more' 'less' and 'equal' and begin to add and subtract numbers within 10. There will be lots of practical activities and reasoning activities to help us with this. You can also help your child to practise their number bonds to 10 as well as writing their numbers, starting and finishing in the correct places.

Science

We will be identifying, naming and describing the properties of everyday materials including wood, metal, plastic, glass and rock, exploring and experimenting with them to help us find the answers to our questions.

We will also begin our work on seasons by going on an autumn walk to the woods and observing the changes in the world around us at this time of year and describing autumn weather.

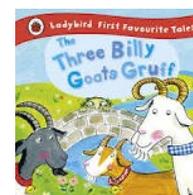

Year 1 Red Kites and Kingfishers Autumn 1 2019

Once Upon A Time

English

Please listen to your child read at home as often as possible. Bring the book back when they have read it and we will give them a new one.

This half term, we will be retelling the story of The Billy Goats Gruff by heart with actions and using that to make up our own 'defeating the monster' stories. We will also write some autumn poems using our senses.

Music and Art

We will be learning the difference between rhythm and beat. We will be practising adding a rhythm as a backing to the songs and how to mark the beat as we sing. We are looking at thick and thin brushes and the different marks we can make with them, working towards creating our final masterpiece based on the work of Kandinsky.

Yoga and PE

We have PE on Tuesdays and yoga on Thursdays. Please make sure PE kits are in school on these days, long hair is tied back and no earrings are worn.
